Severe tumours - haemorrhaging bowels
Spurting chymus your stomach implodes
Gangrened hernia on insides plagued with cysts
The necrosed rectum is a banquet for pathologists

Dismantled anal tract... disgorging innards
Gastroenteral prolapse... disgorging innards

Oral excretion - in faeces you choke
Ectopic sphincter odhered in your throat
Caught up offals and ensanguinated entrails
A foelid vomit splashes on you mangled face

Dismantled anal tract... disgorging innards
Gastroenteral prolapse... disgorging innards

Gorged on gore
Infested with sores
Yearn to excrete...

Jaundiced viscus seeping septic pus
Peptic ulcers - gargle with gastric juices
Nauseating as I gorgonize the abjulent enema
Faecalized intestines dissolved in blood
Coproemetic ectopism... vomitus cruentes
Fermented selfdigestion refluxes to your mouth

Dismantled anal tract... disgorging innards
Gastroenteral prolapse... disgorging innards
