For many years I worked in the morgue  
Human body has no secrets  
I'm the explorer of the rotting flesh  
And perversions without limits  
Far beyond!!!  
Pathology!!!  
Fanatic expert on anatomy  
My dissecting are the sickest  
An artistic way of necrology  
Mutilation and defilement  
Inserting the trachea in the anal tract

Symmetric escissions cut you in a half  
Forced to deformity, members I hack  
Excavate the craneal crypt to entomb the heart  
Quartering my last grotesque masterpiece  
Then I suture it with love  
The macabre god of mortuary art  
Now, my creation is blessed in rot  
Far beyond!!! Pathology!!!
