"Feasting On Purulence"

Infrasternal excrescence macerated in suppuration
Curdled lymphocytic fluids - pungent serum emanation

On pus-filled sacs... on blistering scabs
Your cysts I squeeze... I feast on

Effervesting neoplasm plunged in putrescent
secretions
Purulentia imposthume on the exulcerated omentum

On pus-filled sacs... on blistering scabs
Your cysts I squeeze... I feast on

Foetic gases I sniff getting high on putrefaction
Rigor mortis makes you excrete - I lick the dissectiong
table
