Early stage of contagion - Carnal decay
Gangrened muscles - Flesh melts away
Boils and vesicles cover your skin
Festering pemphigus - Oozing carbuncles

Streptococcus pyogens
Clostridium perfringens
Spawning malicious antigens
Extensive putrescence

Necrotizing fascial tissues
Flesh-devouring pandemic

[Lead: Deliberate contagion by Ana]

Sickness advancing out of control
Government restrictions on the population
Millions of corpses rot in the street
Spreading bacteriae over humanity

Streptococcus pyogens
Clostridium perfringens
Spawning malicious antigens
Extensive putrescence

Necrotizing fascial tissues
Flesh-devouring pandemic
