

Haemorrhage "Foetal Mincer"

Visit "[Foetal Mincer](#)" on MotoLyrics.com

Deplorable carnage on embryonic rests
A livid stillborn dismembered in scorn
Sprawled placenta splattered womb
Amniotic liquid spurts from her cunt
Avulsed testicles put into its mouth
Strangulation by umbilical cord

Contused osseus structure is crushed
Provoking a total limb - displacment

Violently hammered head eyes fly away
Smashing the aborted corpse - foetal mincer

Shredded miscarriage hacked into mush
Inconsistent mass of clotted foetal pulp

Triturated extremeties - bones crackle
Pulverizing the aborted corpse - foetal mincer
