Foul stench corrupts the air - Necrotomy is over
(the) Morgue seems a battlefield full of dissected
corpses
Sculptures of decay
Slaughtered remains
Engraved in rotten flesh
Abstract creation
On carnal monuments I scrawl my poems
To glorify the as I slice their bodies
Sculptures of decay
Slaughtered remains
Engraved in rotten flesh
Abstract creation
Cryptic nauseous scripts
Obscene tribute to the sick
Grotesque funeral art
Decomposed epitaph
Carved in flesh ... Artistic carnage
My blade will trace a maimed homage
Detruncated and deformed, mutilated, disembowelled
My butchery legacy is exhumed by the coroners
Cryptic nauseous scripts
Obscene tribute to the sick
Grotesque funeral art
