

## Haemorrhage "Necrotic Garbage"

Visit "[Necrotic Garbage](#)" on MotoLyrics.com

I'm Fucking tired of making dissections  
I reek of shit and putrefaction  
Many hours among decay  
I'll work no more for today

...Sick gory mess  
Necrotic Garbage  
Autopsied wastes  
Necrotic Garbage

All the floor is full of entrails  
smashed brains and crushed  
Festered rests of human flesh  
On Dripping organs I step

...Sick gory mess  
Necrotic Garbage  
Autopsied wastes

Necrotic Garbage

Vile stench of putrefaction deep  
inside my nose  
Cold leftovers of the Autopsy  
piled-up to dispose  
Underneath the rotten innards...  
a cataleptic corpse  
Those corpses weren't dissected...  
Let them decompose

Cleaning the dissecting table  
Sweep the rotten shit  
Fucking up amputated limbs  
The Morgue is deodorized and clean
