

Haemorrhage

"Posthumous Predation"

Visit "[Posthumous Predation](#)" on MotoLyrics.com

Secretion of necrotic enzymes
Rancid protein decomposers
Gut-bacteria ferments the bowels
Unleash the putrefaction process

...the miracle of rot...
...postmortem spawn...
...displeasent reek....
...necrosis...

Necropahginst parasites
Ovipost of purulent festers
Maggots, pupa, larvs and mifes
Colonize the mouldy intestines

...the miracle of rot...
...postmortem spawn...
...displeasent reek....
...necrosis...

Putrescent decrepit oftals
Corrsive stomach contents
Bacterial decomposition
Larvae hatch on carnal decay

Cadaveric fauna - starving blowfiles
Voracious vermin - calliphoridae
Necrophorous fozssor - dypteran larvs
Staphylinidae... let maggots swarm

Predators of dead tissue
Survive in an hostile enviroment
Caro data vermibus
Restless posthumous devourment
