

Haemorrhage "Unlock The Morgue"

Visit "[Unlock The Morgue](#)" on MotoLyrics.com

Inheritor of a hideous past
Repulsive legends of forensic autcasts
Post-mortem wisdom - ancient legacy
The forbidden secrets of pathology

On the stage of my psychotic dreams
I unlock the insanity ...

A macabre menace for the human race
Morbid remembrances from those glorious days
Cleaning my old tools, covered by rust
Can't you see my smile under the surgeon mask?

Bloody nightmares lurk behind this door
Loathsome visions - prophecies of gore
On the stage of my psychotic dreams
I unlock the insanity ...

Unlock the morgue ...
Necrophobic fears reborn

Death and revenge ...
Written on my scalpel's edge

Unlock the morgue ...
Pathological scorn
Your dismembered fate ...
Written on my scalpel's edge

Bloody nightmares lurk behind this door
Loathsome visions - prophecies of gore
On the stage of my psychotic dreams
In unlock the insanity ...
