"A teardrop falls down from eyelash  
The abusion has begun  
Say, is this the way YOU love me?  
All my might is gone...  
If your eyes are blind, I'll tell you  
I am one of the human race  
Don't you see that wounds of violence  
Slowly leave their trace?"  
Help? From neighbours?  
No chance: they ignore  
Don't dare to discover  
A little boy must suffer  
Listen...  
"You're scum since your day of birth!"  
- Hammered in his head -  
Receiver of second-hand emotions  
Degraded in slow motion  
It's an unforgivable crime  
What they're doing to their child  
Did you ever hear about the right to live?  
Did you ever see:  
You are dangerously sick?  
And you never learned  
Controlling your frustrations  
Exit: Mind Mutilation  
Listen...  
After hours of heaviest violence  
A little body had no chance  
An explosion of brutality  
Is the sad reality  
Can't you see, your child is dead?  
To the most around they seemed to be  
A family in harmony  
One point others couldn't see:  
They're stricken by brutality...  
Help? From neighbours?  
No chance: they ignore  
Don't dare to discover  
A little boy must suffer
