Happy b-day ray

It seems like we were playing on gas street yesterday
That is when we always went out to play (remember)

Look at this lady appearing in front my face
I look twice to if she's finish her little girl race
I try to keep up but she's got the pace

Remember when we were 10 and 9
We play charmed and everything was just fine
We use to fight over who was who
Now we don't care what we do

I look at this lady appearing in front my face
I twice to if she's finish her little girl race

I try to keep up but she's got the pace

Remember when we were 12 and 11
We acted movies stars and so rich we were in heaven
We acted like teenager but we werent there quit yet
My favorite times and urs I bet

Now were 14 and and 13
Haha now we really are tough and mean!!
We are so blond boomshells
Now we are as sweet a silver bells

Look at this lady appearing in front my face
I look twice to if she's finish her little girl race
I try to keep up but she's got the pace
