A cinderblock, a bag of batteries oh baby please let's  
catch amnesia together  
I don't wanna remember  
It'll just hurt for a minute  
It's easy once you begin it  
I'll walk into a wall  
You follow me, slip and fall we'll forget it all  
Let's forget it all

### CHORUS

Let's get hit over the head  
Just not so hard that we're dead  
But so hard we forget all the things that we said  
Oh  
Let's get hit over the head  
Just not so hard that we're dead  
But so hard we forget all the things that we said and  
the things that we haven't said yet

Honey let's get obliterated 'til we feel sedated  
So we can recreate it all  
Let's fall  
Let's somersault down the stairs  
'Til we can say whose fault, who cares  
Let's tip back our chairs  
Let's butt heads with a bowling ball

### REPEAT CHORUS

I wanna black out with you  
Won't you black out with me  
I wanna black out with you  
Let's go back to how it used to be  
Back when our slate was clean  
When we were half as mean

Let's hit the reset button  
Let's shake the Etch-a-Sketch  
Let's clean up this mess we're in  
And should our plans fail  
Should the effects pale  
We can always catch amnesia again we can always

catch amnesia again we can always catch amnesia

REPEAT CHORUS
