I hope it doesn't work
I hope you make each other as miserable as you made
me
I hope it blows up in your face
I hope it doesn't work
I hope you make each other cry I hope you make each
other scream, but never in a good way
I hope you get put in your place

CHORUS

You think you know but you don't know
You think you know but you have no idea
You think you know but you don't have a clue
But I hope someday you do
And if you take a scuba trip I hope you lose your way
and then you get into a bind
I hope you spot an anglerfish you think you see they
light and then you get eaten alive

REPEAT CHORUS

I hope he gives you syphilis and you don't notice it
Until it creeps into your brain
Then which one of us would be insane

REPEAT CHORUS

And I hope you think of me
And think boy I really fucked up, man I really miss her
Then when you go home to him I hope that you walk in
on him fucking your sister

REPEAT CHORUS
