Well it's Good Good Good Friday
And I took too long to rise
I knew that it was getting late but I couldn't open my
eyes
So I slept in 'til the soaps came on
And I took a shower 'til the hot water was gone
I knew that it was getting late
But I still wanna save the day
'Cause I don't have to work today
And I wanna be Good Good Good Friday

Well it's feast or fast just like before
When we had our little holy war
And you said we are just what we eat
We are the blood we are the meat
And what good good good's a carnival without a
carnivore

It's almost Easter but it's snowing outside
The sky is just a solid white
If we're lucky it'll melt by May
But I just wanna stay in and play
Cause I don't have to work today
And I wanna be good good good someday

Well it's Good Good Good Friday
And I took too long to rise
I knew that it was getting late but I couldn't open my
eyes
I know that it was getting late
But I still wanna save the day
'Cause I don't have to work today
And I wanna be Good Good Good Friday
