I thought I'd make a living off of mason jars  
In case I fail at something that's from the heart

### CHORUS

But I found out it was only worth like three bucks and  
there are no returns so I'm kind of stuck  
So I just stuck it on the shelf right there  
And I fill it with the whiskers that I pick up

I thought I'd make a living on the Price Is Right  
But you know I could never afford the flight  
Besides, what, just to play the game  
I mean besides they'd probably never say my name

### REPEAT CHORUS

I thought I'd make a living on the Mega Millions but I  
only got one number right  
And I had to go to three gas stations at eleven o'clock  
at night

### REPEAT CHORUS

And they'll bring me luck
