My idiotic vapid pathological crush on you  
Is masochistic massively unrealistic too

### CHORUS

I think I had another nightmare mama (shoo bop shoo  
bop bop ooh)  
I think I had another nightmare and you don't stop and  
you don't stop  
I think I had another nightmare mama (womp bop a-  
womp bop boo)  
I think I had another nightmare and you don't stop and  
you don't stop  
Do you

I had another Gregor Samsa morning  
As seems to happen most days these days  
When you just shamble up without a word of warning  
Just to make fun of my twitching, twitching insect legs

### REPEAT CHORUS

My beastly self-destructive  
Absurd counter-productive fancy drives me straight to  
mother's ruin  
It is a most unwise thing in fact it's pulverizing me you'll  
see I'll be a fine thing soon

### REPEAT CHORUS

Don't you have a pretty little mouth  
That doesn't mean that you should use it  
To give me your best Mickey Mouse  
So don't think for a second I don't see right through it  
You think everything's hilarious  
You smell like diamonds down below  
You're mackerel-skinned and so gregarious  
But give me a goddamn break, fucker  
Give me a goddamn break, fucker  
Give me a goddamn break  
I have a condition you know (shoo bop shoo bop...)
