Welcome, sulfur dioxide
Hello, carbon monoxide
The air, the air
Is everywhere

Breath deep
While you sleep
Breath deep

Bless you, alcohol blood stream
Save me, nicotine lung steam
Incense, incense
Is in the air

Breath deep
While you sleep
Breath deep

Cataclysmic ectoplasm
Fallout atomic orgasm
Vapor and fume
At the stone of my tomb

Breathing like a sullen perfume
Eating at the stone of my tomb

Welcome, sulfur dioxide
Hello, carbon monoxide
The air, the air
Is everywhere

Breath deep
While you sleep
Breath deep
Deep, deep de deep
