"Slow Down"

Visit "[Slow Down](#)" on MotoLyrics.com

Every day, when you're on your own
Take the time to look at yourself
Anyway, if there's not a chance
You're not alone, we're right by your side

And now, you're not alone
And now, you've got a friend
Slow down, you've got a friend

Every day, when you're all alone
Take the time, all the love that you've got
Anyway, if there's not a chance
You're not alone, we're right by side

And now, you're not alone
And now, you've got a friend
Slow down, you've got a friend

And now, you're not alone
And now, you've got a friend
Slow down, you've got a friend
Got a friend
