Every day, when you're on your own  
Take the time to look at yourself  
Anyway, if there's not a chance  
You're not alone, we're right by your side

And now, you're not alone  
And now, you've got a friend  
Slow down, you've got a friend

Every day, when you're all alone  
Take the time, all the love that you've got  
Anyway, if there's not a chance  
You're not alone, we're right by side

And now, you're not alone  
And now, you've got a friend  
Slow down, you've got a friend

And now, you're not alone  
And now, you've got a friend  
Slow down, you've got a friend  
Got a friend
