"Sure Love"

Visit "[Sure Love](#)" on MotoLyrics.com

There's a new star in my sky
There's a new song in my life
Some may take love casually
But I know what it's worth to me
I would count the steps from here to heaven
Every heartache I was given
Tip my hat and walk through fire
To find sure love
I would chase old ghosts and watch them scatter
Drop old dreams and watch them shatter
Lose myself and all I own
To find sure love
To find sure love
I wake up and she is there
And for a moment I just stare
For the sake of love this true
There is nothing I won't do
I would count the steps from here to heaven
Every heartache I was given
Tip my hat and walk through fire
To find sure love
I would chase old ghosts and watch them scatter
Drop old dreams and watch them shatter
Lose myself and all I own
To find sure love
So may take love casually
But I know what it's worth to me
I would count the steps from here to heaven
Every heartache I was given
Tip my hat and walk through fire
To find sure love
I would chase old ghosts and watch them scatter
Drop old dreams and watch them shatter
Lose myself and all I own
To find sure love
To find sure love
Oh, to find sure love
