"Long Kiss Goodbye"

This time when we are going to meet,
I often said that towards you face.
You probably thought something was up

Anytime that suits, or passes the sky Ky
Briefly noticing your idea, "I cry"
If it is common like this to have tears?

You "transfer" yet you appear again
Now you are gone you are no longer visible
And now I cannot see you
Is only the memory

When we have the chance to convey,
The right words don't come
Instead the thing that drops is a little lie.
You cannot say "I'm going"

Grasping the freshness as you are suddenly gone
It has been so long, have you forgotten
It's all coming back

You "transfer" yet, you appear again.
Now you are gone you are no longer visible
And I can now not see you
Is only the memory.

Grasping the freshness
As your suddenly gone.
It has been sa long, have you forgotten?
It's all coming back

You "transfer" yet to appear again
Now you are gone, you are no longer visible
And now I cannot see you
Is only the memory
