Take me as you are,  
Push me off the road  
the sadness,  
I need this time to be with you  
I'm freezing in the sun;  
I'm burning in the rain  
The silence;  
I'm screaming,  
Calling out your name.

And i do reside in your light  
Put out the fire with me and find  
Yeah you'll lose the side of your circles  
That's what i'll do if we say goodbye.

To be is all i gotta be  
And all that i see  
And all that i need this time  
To me the life you gave me  
The day you said goodnight.

The calmness in your face  
That i see through the night  
The warmth of your light is pressing unto us  
You didn't ask me why  
I never would have known oblivion is falling down.

And i do reside in your light  
Put out the fire with me and find  
Yeah you'll lose the side of your circles  
That's what i'll do if we say goodbye.

To be is all i gotta be  
And all that i see  
And all that i need this time  
To me the life you gave me  
The day you said goodnight.

If you could only know me like your prayers at night  
Then everything between you and me will be alright.

To be is all i gotta be

And all that i see  
And all that i need this time  
To me the life you gave me  
The day you said goodnight.

She's already taken,  
She's already taken  
She's already taken me

She's already taken,  
She's already taken  
She's already taken me.

The day you said goodnight
