She left you alone
Then I came along
You said you were over her for good
Looks like you were wrong
Cuz you still call her name
Sometimes in the night
You may have a broken heart
But you don't have the right
(chorus)
Not here in my arms
Not while you're here with me
If my love can't erase
Another time and place
Then I'm not what you need
I can hold you close
I can only so far
Yeah, I know she said "goodbye"
And you need somewhere to cry
But not here in my arms
I can give you space
I can give you time
But I can't give you all that's in my heart
While she's still on your mind
So, maybe I should go
And leave you two alone
If you need to get over her
Then do it on your own

(chorus)

Yeah, I know she said "goodbye"
And you need somewhere to cry
But not here in my arms.
