They set me up real nice here in the corner  
Iâ€™ve got my very own self to keep my mind and body  
warm

They set me up real nice in the back room  
Even let me eat the shit they borne

Donâ€™t nobody know any better, I suppose  
Ainâ€™t nobody looking really  
But the winterâ€™s getting cold and I need

Love that breaks me down  
So I can sit up straight and look ahead  
Hearts that kill my bones  
So I can be alive instead of dead  
I need that doesnâ€™t care  
If I get mad, or if Iâ€™m not always convenient  
I need blood more real than whatâ€™s  
Running through my veins  
I need safe

I guess I just got used to bending  
Itâ€™s the greatest magic trick the world has ever seen  
Tell me how it is and Iâ€™ll shift my shape  
I wonâ€™t even remember it tomorrow

Nobody told me any better  
They just watched me turn into  
A little shook-up bottle of soda, I needâ€¦

So come up now, come from where you are  
All you people whoâ€™ve seen the sign  
Gather up, gather â€™round me now  
If youâ€™re willing to clear up the lies

You will hear a loud explosion  
Followed by bits and pieces of me  
Flying aimlessly

And weâ€™ll put it back together  
The way it should have been  
The way it should have been

The way it was at first  
The way it was at first  
The way I will be  
The way I am
