One chance, one dream for you  
No limits to deny  
Move on and grab the prize  
Like diamonds in the sky

[Bridge]  
Stay strong and you'll believe  
Stay strong and then you'll see

[Chorus]  
Beg steal or borrow  
Like there's no tomorrow  
Your fortune is fleeting  
But love has no bounds  
Dare to be open  
Your wild heart has spoken  
Each one of us has  
What we know must be found  
Must be found

This is the moment  
That is rightful in your soul  
Do what it takes to make  
That victory your goal

[Repeat bridge & chorus]

Stand at the top of the mountain  
With all of the world at your feet  
You're seeking the eternal fountain  
Drink up yes drink all that you need

[Repeat bridge & chorus]
