Sig Sauer, victim of a systems non-control
Devour, striking terror into every soul
Communication breakdown onto self destruction
Schizophrenic people breeding hate
Pessimistic thinking from a failed connection
Survival comes when we annihilate

Nailed to the gun
Nailed to the gun
Nailed to the gun
Nailed to the gun

Paranoia, termination sickness zeros good
Blind power, executing humans in cold blood
Degenerating children with an opiate bullet
Poison flows from words out on the streets
Trapped inside the home that has become the prison
Dissin' everybody that we meet

Nailed to the gun
Nailed to the gun
Nailed to the gun
Nailed to the gun

Locked and loaded, governmental loss to anarchy
Weapon goaded, magnum is gagging liberty
Cultural collision in an endless frenzy
Numbing minds with threats of violence
Hopeless to the dream of any decent future
Running on sheer fear and ignorance

Nailed to the gun
Nailed to the gun
Nailed to the gun
Nailed to the gun

Nailed to the gun
Nailed to the gun
Nailed to the gun
Nailed to the gun
