Well it don't matter 'bout the things they say  
We got nothing to left to prove  
And we wouldn't have it any other way  
So let them make their move

When you got something that's as strong as this  
Don't matter if you fall  
You get back up and face another day  
Ready to make that call

[Bridge]  
Nothing in life is easy  
Nothing in life is free

[Chorus]  
I'm the thunder to your lightning  
Can you feel it?  
What we got is so exciting  
It's a love they can't deny

Now me and you we got a simple heart  
We don't need that much to make it run  
Our souls are living proof right from the start  
You got to get your knees dirty one by one

So when you look at me I wanna cry  
This is good as all I ever need  
Cause I'll be with ya till the day I die  
Something that we both believe

[Repeat bridge & chorus]

They can't take it, they can leave it  
We don't care cause  
This will always be our secret  
For the rest of our lives

Nothing can bring us down  
We'll always be around  
Nothing can stop us now

I ain't a dreamer, I know what's real

And you are just the same as me  
So if the cards of life can't break the deal  
Then what is there left to see

Roll out the freedom bell and cross your heart  
Cause me and you we love to sing  
And they don't like it they can go to hell  
So come on baby make it ring

[Repeat bridge & chorus]

They can't take it, they can leave it  
We don't care cause  
This will always be our secret  
For the rest of our lives
