[Halford/Baxter/Z]

From memories of '68 when the wizard shook the world
Metal came from foundries where the midlands sound
unfurled

The bullring was a lonely place of concrete towers and
steel

The coal mines and the industries were all I had to feel.
Something inside took hold of me, I really didn't know
But overtime it came to be, I knew which way to go
I drove around in search of what would make this all
come true

From jazz and electricity and good old southern blues
Hell, we're born to raise some hell

Hell, we're gonna raise some hell

In henry's and in mother's where i'd go to bang my
head

The feeling took a hold of me with every word I said
The voice was born and came alive from all I saw and
heard

And now I knew my destiny, I had to spread the word.
I took the scream around the world

From london to L.A.

Unleashed in downtown tokyo

Blew godzilla away

Then on the sound and fury went from sidney to brazil
It sent the russians crazy cause they never get their fill.

Of hell, we're born to raise some hell

Hell, we're gonna raise some hell

Hell, we're born to raise some hell

Hell, we're gonna raise some hell

The stage and the lights and the amps are ablaze
watch them burn

From all this insanity the metal god's will return.

Shock waves attack relentlessly, intimidating force
So many bands surrounding you with evil from our
source

It screams across the universe and slams you to the
floor

This blitzkrieg psycho mania is coming on full roar

The world's a stage that's waiting for its bad ass to get
kicked

And we're all on the road to hell and that's route 666

Hell, we're born to raise some hell
Hell, we're gonna raise some hell
Hell, we're born to raise some hell
Hell, we're gonna raise some hell
