[Halford/Lachman/Baxter/Z]  
I'm digging deep inside my soul  
To bring myself out of this god-damned hole  
I rid the demons from my heart  
And found the truth was with me from the start  
Holy angel lift me from this burning hell - resurrection  
make me whole  
Son of judas bring the saints to my revenge -  
resurrection bring me home  
I walked alone into a fight  
No longer standing in satanic light  
I tried to look too far ahead  
And saw the road go to my past instead  
Holy angel lift me from this burning hell - resurrection  
make me whole  
Son of judas bring the saints to my revenge -  
resurrection bring me home  
I've faced the things i've said and done  
There is no bastard left to overcome  
The peace of mind I thought was lost  
Was right in front of me on paths i've crossed  
Holy angel lift me from this burning hell - resurrection  
make me whole  
Son of judas bring the saints to my revenge -  
resurrection bring me home
