White swords of blinding razor light  
Blast round the earth  
Validating with immortal strength  
Courage of the brave  
From the aftermath of dust and flames  
Resilience soars  
Upon the searing light's reflected blade  
That guards and saves  
The dark sky  
The victims  
The air is full of vengeance  
From now on  
No mercy  
The wrath of God  
Reins on you  
These monuments of power and steel  
Carved in each soul  
Stand forever indestructible  
For all mankind  
The face of mighty nations liberty  
In stoic resolve  
For all the hated evil that men can do  
Will be avenged  
The dark sky  
The victims  
The air is full of vengeance  
From now on  
No mercy  
The wrath of God  
Reins on you  
It's over  
You're wasted  
Now you're incinerated  
In hell  
I'll meet you  
And once again  
Defeat you  
And though the light is dimmed to black someday  
Inside it burns  
A raging fire to virtues endless war  
And freedom's cause  
The dark sky

The victims  
The air is full of vengeance  
From now on  
No mercy  
The wrath of God  
Reins on you  
It's over  
You're wasted  
Now you're incinerated  
In hell  
I'll meet you  
And once again  
Defeat you
