

## Halie Loren "Numb"

Visit "[Numb](#)" on MotoLyrics.com

"Get it out of your head," they said  
"Don't you wanna forget?"  
"We know you wanna be numb, come onÂ...  
Shut it off just like everyone has done"

They'll tell you just what you need to know  
They'll erase what you don't  
They're looking out for your every step  
Is the intent to control or protect?  
Smile, it's okay  
They can make the (whole) big, bad world go awayÂ...  
Shut it off shut it off shut it off

(CH)  
Don't see, don't hear  
Don't know, don't fear  
Now don't you feel better now, my dear?

Shouldn't our hunger for truth be calmed?  
We've been without it so long

So many seem not to mind it now  
The image of integrity whittled down  
Don't we (all) deserve  
To live in a dream, feeling safe and undisturbedÂ...  
Shut it off, shut it off, shut it offÂ...

Don't see, don't hear  
Don't know, don't fear  
Now don't you feel better now, my dear?

Get it out of your head, get it out of your head  
Just close your eyes and be led, the age of reason is  
deadÂ...  
Get it out of your head, get it out of your head  
Swallow what you've been fed, the age of reason is  
dead  
The age of reason is dead, reason is dead, reason is  
deadÂ...
