

## Halifax "Our Last Dance"

Visit "[Our Last Dance](#)" on [MotoLyrics.com](http://MotoLyrics.com)

Please listen to me October  
Things will be a little different  
Things will be a little different  
This September now when nights are long

Let me have this one last dance  
She leads me out of the room  
She leads me out of the room

Get me up and get me moving  
I wanna do this one more time before I  
Go on the road tonight  
I'm going on the road tonight

Get me up and get me moving  
I wanna do this one more time before I  
Go on the road tonight  
I'm going on the road tonight

You're caught you're all the same  
Now I never knew, I never remembered your name  
The walls are closing in my cigarette is getting smaller  
The air is getting thin  
It doesn't seem like theres much room to do  
To do

Get me up and get me moving  
I wanna do this one more time before I  
Go on the road tonight  
I'm going on the road tonight

Get me up and get me moving  
I wanna do this one more time before I  
Go on the road tonight  
I'm going on the road tonight

How in the world could this ever happen  
Face down its happening all again  
How in the world could this ever happen  
How in the world could this ever happen now

How in the world could this ever happen

Face down its happening all again  
How in the world could this ever happen  
How in the world could this, could this, could this

Get me up and get me moving  
I wanna do this one more time before I  
Go on the road tonight  
I'm going on the road tonight

Get me up and get me moving  
I wanna do this one more time before I  
Go on the road tonight  
I'm going on the road tonight

Listen to me October  
Things will be a little different  
Things will be a little different  
This September now when nights are long

Let me have this one last dance  
She leads me out of the room  
She leads me out of the room  
She leads me out of the room  
She leads me out of the room
