Automatic action  
Follow my reflection  
I see myself in watching you  
Lock into a vision  
Rising through the rhythm  
Trance until the dance is through  
Dont let emotion go the flow is all we know  
And baby were doing it all the way  
A step into the night or move into the light

Lately were going through the motions

How can we improve it  
Ooh you match my movement  
Cryptic choreography  
Jump up come down together  
No one does it better  
Electric eccentricity  
No, I dont wanna know how far were gonna go  
But baby were doing it all the way  
A step into the light a move into the night
