(Words by Daryl Hall & John Oates
Music by Daryl Hall)

You and I have separate lives girl
You and I go different ways on roads that cross
When love and loss is ruled by fate
People have a tragic habit
Of letting love get in the way
They tend to lose their overviews and overplay

Something I wanna say
Something I've got to do
Feels like you're drifting away
And I don't wanna lose you

I'll try to find a way to encourage you
It's easy to convince myself
Cause I can't believe you'd wanna be with somebody
else
People have a tragic habit
Of letting love get in the way
They tend to lose their overviews and overplay

Something I wanna say
Something I've got to do
Feels like you're drifting away
And I don't wanna lose you
