I wanna go up where something matters

I wanna blow up where matter scatters

I wanna live into the future

I want to give... more girl

Next step

No side stepping this time

Cross over life on the line

One thing to talk big

Go to follow thru

All set

Got to get past the present too

Don't want to reach out for yesterday

Don't want to block the shock of the new

I wanna see what new love will bring

I'm gonna give all that love to you

What's the next step

My mind is open wide

Next step

What'll be the next step baby

What's the next step

I'm finished with the past

Next step

Won't be the last step baby

You wanna wake up with me beside you

You wanna shake off bad thoughts inside you

We're gonna walk on into tomorrow

We're gonna have more fun now

Don't look around for yesterday

No blocking out the shock of the new

Do you wanna see what new love can bring

I'm gonna give all that love to you

What's the next step

My mind is open wide

Next step

What'll be the next step baby

What's the next step

I haven't got a clue

Next step

Wanna make the next step with you

What's the next step

Gonna take it gonna take it

Next step

Gonna step right

Won't step back

What's the next step

No bad songs

No bad songs

Next step

Say hey

Don't you want to take the next step

Ring out the old

Ring in the new

Never know 'til I do what I'm gonna do

Say hey

I want to take the next step

Say hey

What's the next step

My mind is open wide

What'll be the next step baby

Next step

What's the next step

Ain't gonna be the last

Next step

Forget about the past

What's the next step

We've got to open up

When the next step comes along

I've got to follow thru

Take the next step with you

I wanna ring out the old and ring in the new

Come out of the cold

Take a step with you
