Maybe I'm on Rocky Mountain time  
But I don't know, what's up with you  
Could fake it out, say hey never mind  
But someday livin' loose will get to you  
And you say baby please, I'm cryin' tears  
Will I hear it deep inside of me?  
Maybe you'll decide, you're outta here  
Anything can happen, anything can be

This time  
You can't walk away  
Gotta have you say  
Make it clear  
This time  
Gonna face your fears  
Share your tears  
For love my dear

Sad attacks  
Rollin' off my back  
I don't know, babe how to be so blue  
I can lose my mind, I can do hard time  
But it scares me if I'm outta sync with you  
I'm going to extremes to show a gentle man  
You know I'm not as hard as you believe  
Try for you, and cry for you  
Never call me heartless, when I try the hardest

This time  
You can't walk away  
Gotta have you say  
Make it clear  
This time  
Gonna face your fears  
Share your tears  
For love my dear

This time  
I won't turn away  
From the love that's here  
The love I needed  
This time

I won't let you down  
I won't play around  
I swear my dear

Ain't no doubt  
People live in fear  
Turn away, no see no hear  
Sayin' I don't know, what happened officer  
I wanna be the perfect witness  
Baby do we care to see it?  
Show some heart, maybe come a time  
When love will come apart  
We're livin' here, I will make it clear  
Silence is a lie, to tell the truth I'm tryin'

This time  
You can't walk away  
Gotta have you say  
Make it clear  
This time  
Gonna face your fears  
Share your tears  
For love my dear

This time  
I won't turn away  
From the love that's here  
The love I needed  
This time  
I won't let you down  
I won't play around  
I swear my dear

This time  
I'm gonna love you baby  
You know what I need it baby  
I'm gonna make it clear, make it clear  
Girl I wanna be with you  
You know I wanna stay with you  
I swear my dear  
This time  
You wanna hear it baby  
But you'll believe it baby  
Time to believe  
This time  
Never wanna be alone  
This time  
This time
