I hear you call me, waterwheel  
Spin round, round in a circle  
Gracing my child dreams on fantasy hill  
Spin round, round in a circle  
Flash! Paddles sending a spray to the air

Lately, my thoughts are still-  
With you there as you spin round  
Round in a boyhood daydream  
Spin round

My thoughts are drifting to a quieter time  
(Spin round, round in a circle)  
Green covered slippery water-rocks I used to climb  
(Spin round, round in a circle)  
Father and child walking down by the canyon

Lately, my thoughts are still-  
With them there as they spin round  
Round in a boyhood daydream  
Spin round
