Well Im looking at her from a rock &  
Roll tower  
With the windows, its eyes  
And its black stained sides that cant  
Be climbed  
Cause theyre slick as wet glass  
And the gate lets the force out, but thru  
None shall pass

But when Im with you its just me in my time  
Guess Ive taken some form  
Who knows which time around  
But one of the reasons is to unite me  
With you  
Im sure of that baby, if a heart tells the truth

Is it the winged bull  
Or the horns of old pan  
Theres ra unto isis  
Theres woman to man  
Sun and the moon  
Minus and plus  
Zero equals two  
In love and in us

Wings of fire and me in my time  
Taking the form making this sound  
Its all of the reasons that unite me with you  
Im sure of that baby  
If a heart tells the truth  
Heart tells the truth
