That song is driving me crazy, I gotta hear it again
First time I heard it I was with some friends
It's a simple little song you can sing along with an old
time melody

So would you play that crazy little song again for me
That song is driving me crazy

I love that part about break my heart and baby, please
come home
And I love that line about hurtin' my mind and my beer
ain't got no foam
That song is driving me crazy

Well, you'll sing high and I'll sing low and everybody
sing along
But everybody quit while I get my kick singin' bring that
boogie home
Mhm, that song is a driving me crazy

Okay gang, well, that song is driving me crazy
That song is driving me crazy
