"All Or Nothing"

I've seen the angels in your eyes
At least that's something
But i don't believe in compromise
It's all or nothing
Sweat on your skin it tastes so pure - a taste of heaven
Such nights as these I thank god for, and all is forgiven
It's just that you're so beautiful
Fall for me
Cos i want it all or nothing
And I'll hold you close to me
And I'll watch the angels in your eyes
Give it all to me
I'll make sure you want for nothing
And I'll love you endlessly
And we'll have it all, yeah, you and I
I'll do whatever turns you on
I wanna get closer
I'll make you see you are the one
Of this I am so sure
It's just that you're so beautiful
Fall for me
Cos I want it all or nothing
And I'll hold you close to me
And I'll watch the angels in your eyes
Give it all to me
I'll make sure you want for nothing
And I'll love you endlessly
And we'll have it all, yeah, you and I
I've seen the angels in your eyes
At least that's something.
