I am no big deal  
I am no big deal  
I am no big deal  
Yeah I think so  
I am no big deal  
I am no big deal  
I am no big deal  
Yeah I think so  
I get messed up  
Living the simple life  
So much stuff  
I don't wanna think about  
Come on back up  
Look what you've done to me  
I am a full-scale living catastrophe  
I am no big deal  
I am no big deal  
I am no big deal  
Yeah I think so  
I am no big deal  
I am no big deal  
I am no big deal  
Yeah I think so  
I.....  
Am.....  
No.....  
Big.....  
Deal....  
I get messed up  
Living the simple life  
So much stuff  
I don't wanna think about  
Come on back up  
Look what you've done to me  
I am a full-scale living catastrophe  
It all seems so clinical insecure  
My worst trick just take it and beg for more  
I don't live life looking for sympathy  
I'll come alive just give me some empathy
