

Hallows Eve "D.I.E."

Visit "[D.I.E.](#)" on MotoLyrics.com

We are all dying there's no sense in trying no way you
can stop it no way

Death comes to you when you're an early son

Then he walks beside you all the way

Any moment he might strike reflecting your past life

And sentencing you to the grave

Don't live life worrying 'bout things you can't stop

If you give in then you'll be his slave

Chorus:

D.I.E. death in effect

He's our final conflict he's our final judge

He is death and he follows me

He is the force which exists on this earth

To betray and intimidate me

Only one way to win only one way to live

If you give in then you're going to pay

I'll be the conqueror I'll thrash till death

Exist for myself all the way

Chorus

When I feel I am slipping they stand in my way

The people that might drag me 'round

I'll never worry I'm the killing force and I'm bringing the
hammer down

You do not own me there are no rules society I will
begrudge

Believe on thyself and thou shalt be saved

For thou art thine own final judge

Chorus
