It's still blowing a gale outside,  
And I wait for you to call,  
It's freezing out there tonight,  
I hear you at the door.  
Come on in,  
It's way too cold outside,  
And come close to me,  
And I will hold you tight.  
We'll close our eyes, you and I,  
And we'll escape from our lives,  
We'll escape from our lives.  
God I've missed you,  
I'm glad you're here,  
And I hope you feel the same.  
I'd wait a lifetime for you my dear,  
So come in out of the rain,  
And close the door,  
It's way too cold outside,  
Come close to me,  
And I will hold you tight,  
We'll close our eyes, you and I,  
And we'll escape from our lives,  
We'll escape from our lives,  
We'll escape from our lives,  
We'll escape from our lives.  
I feel alive,  
I can see the sunshine in your eyes,  
And we're still alive and everything's alright,  
It's just you and I,  
And I wish tonight would last forever.  
Stay by my side,  
Stay by my side,  
And we'll escape from our lives,  
We'll escape from our lives,(repeated)  
I feel alive,  
I can see the sunshine in your eyes,  
And we're still alive and everything's alright,  
It's just you and I,  
And I wish tonight would last forever. x2  
Stay by my side,  
Stay by my side.
