

Hallows Eve "Horrorshow"

There exists two worlds for you one is false and one is true
I have lost my shirt my friends paranoid vision,
my brain is mildew I lost reality long ago now I live in a
Horrorshow!
reality is a tightrope trick once fell,
real beasts devour quick my fictional beasts are real to
me my very thoughts
a caustic I lost reality long ago now I live in a
Horrorshow!
Truth, fiction, one and the same one is real,
the other to blame I don't care what your bishops say
truth
shall eat the skull of the lame I lost reality long ago now

I live in a Horrorshow!
