

Hallows Eve "Suicide"

Visit "[Suicide](#)" on MotoLyrics.com

I took the pills that made me fast to speed my brain
future is past
Rapid pulsations upon my heart pulsing my blood from
part to part

Chorus:

Suicide I'm still living suicide I'm still giving
To suicide I bring the gas to suicide I give my ass
Open the can I huff the fume ah, to me it is perfume

Chorus

To suicide I swear an oath the human race I do loathe
Now I drive reckless speed with suicide I take the lead

Chorus

I wish I had never been born my own past hear me
mourn

Arm in arm I walk with death crazed words on my last
breath

Chorus
