Even the sun gets blue
When you're gone
I look for you
The moon would blush
If it read my mind
I think of you

Sunrise surprise
Sunrise surprise
Gets in my eyes

The stars would fall
Out of the sky
If they saw you cry
I pray for you
Do you hear my words?
Do you feel my love?

Sunrise surprise
Sunrise surprise
Gets in my mind

I know where i belong
Here with you in your arms

Sunrise surprise
Sunrise surprise
You're in mind
