Come to me,
I'm the best you will ever see
Please remember you must agree,
Before I lose it completely
I confess,
I'm deluded and self-obsessed
So remember, forget the rest
And tell me I am the best
Stand before me
Stand and behold me
Come on adore me
Think this of me
You're not above me
As if you love me
I could do
Anything if i wanted to
I could be like a god to you
Tell me, tell me i could
The world is mine, for the taking,
Who cares if I,might be faking
The best design
Is in this motion of mine
Stand before me
Stand and behold me
Come on adore me
Think this of me
You're not above me
As if you love me
Feel my confusion
So cut my delusions
And quickly the sickness is sick
So come and save me baby
Stand and behold me
Come on adore me
Think this of me
You're not above me
As if you love me
