

Halor "Desire To Fly"

Visit "[Desire To Fly](#)" on MotoLyrics.com

Have you ever felt
The sky is so far
And weekdays press you
Deep into the tar

There's nothing left to stay
Your dreams are far away
There's no more reason
For you to stay – no way

Leave the earth behind
The long day's killing grind

Spread your wings and show
For all the world to know
We can reach up to the sky
Desire to fly

Have you ever heard
The call of the stars
Have you ever seen them
Through the clouds

Feel the power inside
And never hide
And you'll see we'll free
Again tonight
