Tell me what you see when you look in my eyes?
Tell me what you think? What's deep inside?
Who do you think I am, staring into my face?
You don't know me, you've never felt the evil embrace

I roam the darkest side of the world
Followed by lost souls as black birds

It's the final warning - dept is calling
Now it's time
There's no more wonder - the roars are louder
Demons take my life... Final warning...

Don't try to save me! I can never escape
I'm trapped inside the endless seas of pain
You'll never understand me... You don't even try
No one sees the lonely tears that I cry

I roam the darkest side of the world
Followed by lost souls as black birds

It's the final warning - dept is calling
Now it's time
There's no more wonder - the roars are louder
Demons take my life... Final warning...
