

## Halor "Hell Is Rising"

Visit "[Hell Is Rising](#)" on [MotoLyrics.com](https://MotoLyrics.com)

Ride on the wings of sound, like demons in the night  
Burn - burn to the core, the madness owns you mind  
War of flesh and blood - just don't wait for the dawn  
Devastating volume of amps will always call

Lightning strikes - burning nights - we kill the  
silence  
We are the metal machine that spits fire in your face

Hell is rising - Runs through our veins  
Angels crying - and going insane  
Hell is rising - Breaking bones  
Forever burning in our hearts and souls

Try to stay alive and overcome the war  
Cry - cry for your life - the storm will take it all  
Scream for mercy, but be sure that it won't help  
Masters of the underworld pull us back into hell

Lightning strikes - burning nights - we kill the  
silence  
We are the metal machine that spits fire in your face

Hell is rising - Runs through our veins  
Angels crying - and going insane  
Hell is rising - Breaking bones  
Forever burning in our hearts and souls
